

Elephant Box

Be Part of the Solution.

Elephant Box realised how plastic is such a problem - they started Elephant Box to be part of the solution. Their products are designed to replace disposables, creating products to last a lifetime, helping individuals to reduce the rubbish they create. Buy better = Buy less.

They are proud members of 1% For The Planet. Giving back by donating 1% of all sales every year to support environmental non-profits, such as Surfers Against Sewage, SeaWilding & Trees for Cities.
